

Swing Wall Sconce

This page lists the contents included in the box. Please take time to identify the hardware as well as the individual components of the product. As you unpack and prepare for assembly, place the contents on a carpeted or padded area to protect them from damage. Please follow the assembly instructions closely. Improper assembly can result in personal or property damage.

NOTE: We recommend that this fixture be installed by a licensed electrician. If you are unsure about what mounting method you should use, consult a qualified professional or your local hardware store.

 <p>power drill (for pilot holes only)</p>  <p>phillips head screwdriver</p>  <p>level</p>  <p>electrical tape</p>	 <p>4 - screws</p>  <p>4 - plastic anchors</p>  <p>1 - 9 watt max CFL bulb (INCLUDED) OR 1 - 40 watt max type B standard bulb (NOT INCLUDED)</p>	 <p>1 - wall sconce assembly</p>
--	---	--

Determine the location for the wall sconce. Using a **level**, position **wall sconce assembly** and mark 4 hole positions on the wall. Set wall sconce assembly aside. Drill a pilot hole in the wall stud. If the wall stud is not available, drill a hole in the wall that is slightly smaller in diameter than the anchor. Insert 4 **plastic anchors** into holes. Gently tap **plastic anchors** into the wall until the flange of the anchor is flush.

Align holes of **wall sconce assembly** with corresponding anchors in wall. Insert 4 **screws** through **wall sconce assembly** and into each **plastic anchor** as shown. Secure each screw with a **phillips head screwdriver**.

Insert 1- **bulb (included)** into socket. **DO NOT EXCEED SPECIFIED WATTAGE.**

Installation is now complete.

! Important Safety Instructions:
 This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not attempt to override this safety feature.

Cleaning and Care
 Do not use polishes or cleaners on your lamp. Dust surfaces with a dry soft cloth. The matte black finish is prone to scratch more easily than other finishes, please take care when handling.
