Dinnerware

We can all agree that over-the-top place settings are, well, over the top. Today we're just as likely to use the same plates for a Sunday pancake breakfast as we are a dinner party. Our open stock program allows you to pick out a mix of colors and patterns that suit your personal style. An added bonus: Almost every piece of bone china, porcelain and stoneware is dishwasher-, microwave- and oven-safe.

Your Table, Your Way

Pick the pieces best suited for your life. Just remember to consider the future and family gatherings, too. A wise choice: our bone china Bennett Collection by British designer Martin Hunt of Queensberry Hunt. Sleek, simple and available in round, square or oval shapes, Bennett brings essentials to the table, plus serving pieces that work with just about anything.

Because white china always works.

It's the ultimate style chameleon. This pattern—handcrafted of fine porcelain in Japan exclusively for us—features a raised dot pattern around the rim and pairs perfectly with a silver charger and neutral linens.

The Daily Dish

Essential

The name says it all. Clean, oversized coupe shapes in white porcelain can do the Thanksgiving buffet, a seated dinner or weeknight carryout.

Maison

This contemporary classic in pure white porcelain has long been a Crate and Barrel favorite. Go all-white for everyday, or up your dinner party look with a statement rim.

White (shown), Cobalt, Gold, Platinum

Hue

It's fun to mix-match these fresh, subtle glazes on porcelain by British designer Aaron Probyn. They're a super-affordable registry choice.

Blue, Dark Grey, Green, Light Grey, Navy Blue, White (all shown)

Roulette

For a tailored look, this white porcelain's subtle concentric circles offer the option of four colorful bands. Designed for us by Queensberry Hunt in London.

White (shown), Blue, Green, Red, Yellow

White Pearl

Both durable and beautiful, this timeless collection has embossed dots on white bone china that were inspired by the simple elegance of a pearl.

Staccato

The raised-dot border is a testimony to this collection's craftsmanship. Inspired by early 1900s Vienna, it's the perfect porcelain for a dinner party in classic white or modern grey.

Flatware

The best accessories make all the difference in an outfit. Like jewelry for the table, the flatware you choose can polish off a place setting in style. We offer more than 40 exclusive designs in a refreshing range of options, from classic to modern. Crafted of high-quality stainless steel, these pieces cost a fraction of formal sterling, and they can go right in the dishwasher. Some are even treated to at least 25 steps of hand-forging or stamping. Where to start? Choose a couple of patterns, then pick up a knife and fork and pretend to cut with it to see what feels most comfortable in your hands.

Serveware and Linens

Turns out you don't have to be a food stylist to set up a spread that looks straight out of a magazine. The secret lies in having a stash of platters, bowls and trays handy so you can elevate anything you serve, quite literally (even takeout gets an upgrade on a beautiful platter). You'll want a range of sizes and styles so you can host everything from a casual barbecue to a cocktail party at a moment's notice. Consider large oval ceramic platters sized for holiday turkeys and medium platters for entrées and vegetables. Metal trays are perfect for serving cocktails, while wood trays with handles are a natural for passing appetizers and small bites.

Fabric takes a table from nice to next level (plus, paper towels are meant for messes, not meals). Textiles add color and softness, and they're easy to switch up with the seasons. Stock up on as many placemats and napkins as you have place settings, plus a few extra good measure. As for runners, consider a few options of various colors and textures.

Drinkware

Think of your drinkware as the MVP of your registry. You'll reach for it morning to night more than anything else. It should look sleek, be comfortable to hold, great to sip from and a breeze to wash. Lucky for you, we offer more than 200 glasses to choose from. What you'll want among the mix: Enough everyday glasses to fill your dishwasher, plus six more so you always have a clean glass on hand. Make sure you have as many red and white wine glasses and water goblets as you have dinnerware place settings, plus four more in case of accidents. As for specialty glasses for cocktails, six to eight of your favorites should do.

Cookware

Ever feel like you need a crash course in thermodynamics to understand the benefits of today's pots and pans? We've eliminated the confusion to match you with cookware that's right for how you cook. So no matter if you're a novice, a savvy pro or a non-stick health-conscious foodie, we've got you covered.

Materials and Construction

Non-Stick

Why is non-stick so popular? Its aluminum core heats evenly, doesn't require oil for cooking and cleans up quickly. Some of our stylish, cutting-edge options—like Calphalon Contemporary™—are dishwasher-friendly and come with domed tempered-glass lids that let you keep an eye on the action. As for those curved handles? They're beautiful, ergonomic and stay cool to the touch. Non-stick is compatible with gas, electric, halogen and ceramic cooktops.

Calphalon Contemporary™ Non-Stick 9-Piece Cookware Set

Multi-Clad Construction

Calling all serious cooks. These beauties are made with heat-surround technology that allows for even heat distribution along the bottom and side walls. The durable anodized exterior is harder than stainless steel and dishwasher-safe, while the stainless steel interior won't discolor with use. Tight-fitting stainless steel lids seal in moisture and nutrients, tapered rims eliminate drips and spills during pouring, and cool-grip handles provide a safe and firm hold. Cuisinart® MultiClad Unlimited™ is compatible with gas, electric, halogen, glass and ceramic cooktops.

Cuisinart® MultiClad Unlimited™ 12-Piece Cookware Set

Ceramic Non-Stick

A superior choice that's PTFE- and PFOA-free, this line was developed exclusively for us in partnership with ZWILLING® J.A. Henckels. Each piece has a non-stick ceramic finish that's scratch-resistant, while its magnetic stainless steel exterior is compatible with all types of cooktops, including induction.

ZWILLING® J.A. Henckels VistaClad Ceramic Non-Stick 10-Piece Cookware Set

Stainless Steel

For professional, restaurant-quality, dishwasher-safe cookware, register for All-Clad® Stainless Steel. It's made with tri-ply construction—three layers of metal sandwiched together not only at the core, but all the way up the sides of the pan to evenly distribute heat. The hand-polished 18/10 stainless interior won't discolor, and the magnetic stainless exterior is compatible with all types of cooktops, including induction.

All-Clad® Stainless 10-Piece Cookware Set

Cast Iron

Cast iron cookware has a long-standing reputation for handling the high temperatures needed for searing and frying, as well as for slow-simmering stews and slow-roasting dishes. Plus, it's said to impart iron particles into foods for an added health benefit. Our options range from classic preseasoned Lodge® skillets to the enameled cast iron collection from Le Creuset®. Cast iron is compatible with gas, electric, induction, halogen, glass and ceramic cooktops—even grills and open fire.

Lodge® Cast Iron 12" Skillet

Copper

A centuries-old culinary tradition, copper cookware has never been more modern. Superior heat conductivity and a quick response to temperature changes make it ideal for cooking delicate foods and complex dishes. Extremely energy efficient, the element usually requires only a low or medium heat setting. Our copper cookware has a copper exterior that heats quickly, tempered by an interior layer of nonreactive stainless steel for superior control.

Cutlery

When it comes to a quality set of knives, just being sharp doesn't cut it. Most of our knives have a full tang, meaning they are hand-forged from one continuous piece of steel from the blade to the handle, which gives them superior balance. They also have a rust-free, non-staining finish that won't react to acidic foods. To determine the differences between knives, you'll want to pick them up in person and see how each one feels when you hold it.

Flour Sifter

Sifting aerates flour and evenly combines dry ingredients for a lighter texture. It's also great for sprinkling confectioners' sugar on pastries.

Measuring Spoons

Measuring spoons are used for dry or liquid ingredients. Our stainless steel set is designed just for us by Carter McGuyer, an award-winning industrial designer.

There's still no better way to cut shortening into dry pastry ingredients. This version has beveled edges to avoid sticking, and an ergonomic silicone handle and thumb rest.

Pastry Board

This slab of white marble remains cool to help keep dough firm while you roll and cut, and nonskid feet anchor it on the counter. It also can be an impressive serving tray.

French Kitchen Marble Pastry Slab

Pastry Mat

Our silicone woven mats protect pans, eliminate burning and keep delicate cookies intact. You can also use these reusable mats to knead and roll dough without flour.

Baking and Counter Mats

Cooling Rack

This footed, non-stick rack raises baked goods and hot pans off countertops, allowing air to circulate while cooling and stopping the cooking process.

Bakeware Set

A set instantly gives you one of every basic pan you need—and not just for cookies and cakes. Baking sheets can also roast asparagus or crisp up a pizza, a round cake pan can bake a frittata, and a loaf pan can do banana bread one day, meatloaf the next.

Calphalon® 10-Piece Non-Stick Bakeware Set

Rolling Pin

White marble has the heft to roll out even the toughest dough and helps to maintain the temperature of the dough with its natural cooling properties. Our patisserie-style version nests in a solid wood stand.
